FOR IMMEDIATE RELEASE:

Decision Dynamics, Inc. Processes First Electronic Vehicle Registration Transaction

On June 8, 2015 Decision Dynamics, Inc. (DDI) began processing Electronic Vehicle Registration (EVR) transactions for dealers. Dealers are now able to submit electronic title and registration transactions to the South Carolina DMV through Premier EVR™.

Lexington, SC, June 22, 2015 - [Decision Dynamics, Inc.](http://www.decisiondynamics.com) (DDI) began providing Electronic Vehicle Registration (EVR) services for dealers processing registration transactions in the state of South Carolina with the first EVR transaction completed on June 8, 2015. Dealers can now manage title applications and registrations for both new and used vehicles through DDI's recently certified Premier EVR™. Requests for new license plates, transfer of plates between vehicles and decals can also be processed through Premier EVR™. Temporary tags generated through Premier EVR™ on approved paper meet the requirements regarding temporary license plates as defined by the South Carolina Code of Laws.

Electronic registration systems provide the capability for dealers to exchange registration and title application information electronically, via the Internet, with motor vehicle agencies by interfacing with Electronic Vehicle Registration systems. Motor vehicle agencies benefit by receiving more timely data exchange, improving data accuracy, and reducing and controlling the use of secure forms. Electronic registration benefits dealers by giving real-time access to up-to-date title and owner information as well as providing a step-by-step process to reduce state rejections.

"In continuing with our commitment to provide a complete integrated electronic titling solution, DDI's newly certified Premier EVR™ product provides full titling and registration services to automobile dealers and lenders offering automobile financing."

Decision Dynamics, Inc. (DDI) provides the Premier EVR™ Internet-based program that enables dealers to participate in the South Carolina EVR program. "In continuing with our commitment to provide a complete integrated electronic titling solution, DDI's newly certified Premier EVR™ product provides full titling and registration services to automobile dealers and lenders offering automobile financing," said Glenn Thames, CEO and President of DDI. DDI's mission is to provide the highest quality titling and registration solutions to customers through secure and enabling technology and a relentless focus on core values and customer service.
